

HAPPY DIWALI

FESTIVAL OF LIGHTS

This year let's celebrate in a COVID-19 safe way.

Here are some tips on how to honour Diwali at home.

1

Celebrate with **only people you live with in your home.**

Gatherings outside the home are not safe right now.

Say no to in-person invitations.

Connect virtually through a video call or by phone with extended family, friends and loved ones.

3

Sharing food is not safe right now.

When preparing festive meals, try to pour Daal and Sabji, and place Pakoras, Samosas, Barfi and Besan on a separate plate for each person.

4

Wear a mask when shopping for festival celebrations this year.

It is ok to ask a person you live with in your home to shop for you if you are feeling unwell and need to stay home.

Celebrate Diwali by joining live stream prayers and lighting Divaa or Diya at home.
